

Agenda

Organisation of workshops

1st quarter 2012 in Ploufragan, France (dates not yet determined)

- Workshop of the network of "Avian Influenza/Newcastle disease" laboratories.
Contact: *Véronique Jestin* (veronique.jestin@anses.fr)

First half of the year in Maisons-Alfort, France (dates not yet determined)

- Workshop of the four French laboratory networks for "Analysis of pesticide residues in food".
Contact: *Frédéric Hommet* (frederic.hommet@anses.fr)

20 January 2012, Maisons-Alfort, France

- Workshop of the network of laboratories for the "Q Fever" pilot surveillance scheme.
Contact: *Élodie Rousset* (elodie.rousset@anses.fr)

(Dates and venue not yet determined)

- Meeting of the EURL for Bee Health with countries selected for the European Commission pilot project on monitoring bee mortality.
Contact: *M.-P. Chauzat* (marie-pierre.chauzat@anses.fr)

Late March or early April 2012 in Fougères (France) (dates not yet determined)

- The NRL for Veterinary drug residues and dyes in food of animal origin and feed.
Contact: *Brigitte Roudaut* (brigitte.roudaut@anses.fr)

28-30 March 2012 in Maisons-Alfort, France

- Annual workshop of the EURL for *Listeria monocytogenes*.
Contacts: *Bertrand Lombard* (bertrand.lombard@anses.fr)
or *Adrien Asséré* (adrien.assere@anses.fr)

23-25 May 2012 in Valetta, Malta

- Annual workshop of the EURL for Coagulase-positive Staphylococci.
Contacts: *Bertrand Lombard* (bertrand.lombard@anses.fr) or
Adrien Asséré (adrien.assere@anses.fr)

June 2012 in Fougères, France

- Workshop organised by the ANSES Fougères Laboratory, an EURL, intended for analysts and managers from the EU's network of NRLs (25-30 participants expected): the workshop will address veterinary antibiotic drug residues in foods of animal origin and will include a technical training session on the analysis by LC-MS/MS of residues of prohibited substances (carbadox and olaquinox) in production livestock and their feed (Fougères, France).
Contact: *Éric Verdon* (eric.verdon@anses.fr)

19 and 20 September 2012 in Nancy, France

- Annual workshop of European NRLs and Balkan countries on rabies. The 20 September will be dedicated to training in the technique of determination of tetracycline from bone samples of foxes.
Contact: *Florence Cliquet* (florence.cliquet@anses.fr)

Agenda

Training courses

First half of 2012 in Ploufragan, France

- Training in the technique of differential virus neutralisation for the serological diagnosis of classical swine fever (subject to a sufficient number of participants).

Contact: Françoise Pol (francoise.pol@anses.fr)

17 to 19 January, 24 to 26 January, 31 January to 2 February 2012 in Maisons-Alfort, France

- Three sessions organised by the NRL for control of marine biotoxins: assaying of lipophilic phycotoxins by LC-MS/MS (ANSES Maisons-Alfort method CAT/NAT/07).

Contact: Sophie Trotureau (sophie.trotureau@anses.fr)

From 16 to 20 January 2012 in Nancy, France

- Training in titration of rabies antibodies for rabies serology.

Contact: Florence Cliquet (florence.cliquet@anses.fr)

Courses organised by the NRL for Foodborne parasites 7 and 8 February in Maisons-Alfort, France

- Training in regulatory diagnosis of animal trichinellosis.

Contact: Sandrine Lacour (sandrine.lacour@anses.fr)

9 February in Maisons-Alfort, France

- Training in self-inspection of swine trichinellosis.

Contact: Sandrine Lacour (sandrine.lacour@anses.fr)

From 9 to 13 January 2012 in Nancy, France

- Training in rabies diagnosis techniques.

Contact: Florence Cliquet (florence.cliquet@anses.fr)

From 16 to 20 January 2012 in Macedonia (visit by an expert from the Nancy Laboratory for rabies and wildlife, France)

- Training in a rabies diagnostic technique.

Contact: Florence Cliquet (florence.cliquet@anses.fr)

From 13 to 17 February 2012 in Macedonia (visit by an expert from the Nancy Laboratory for rabies and wildlife, France)

- Training in a rabies antibody titration technique.

Contact: Florence Cliquet (florence.cliquet@anses.fr)

May 2012 in Dozulé, France

- Workshop organised by the NRL for Contagious equine metritis: training in diagnostic techniques for contagious equine metritis.

Contacts: Sabrina Ribard (sabrina.ribard@anses.fr) and Sandrine Petry (sandrine.petry@anses.fr)

June 2012 in Dozulé, France

- Training course organised by the EURL for the European NRLs for Equine Diseases: Training in diagnostic techniques for contagious equine metritis.

Contacts: Cécile Beck (cecile.beck@anses.fr) and Sandrine Petry (sandrine.petry@anses.fr)

June 2012 in Dozulé, France

- Training in diagnostic techniques for dourine.

Contacts: Cécile Beck (cecile.beck@anses.fr) and Julien Cauchard (julien.cauchard@anses.fr)

June 2012 in Fougères, France

- Training intended for analysts and managers from the EU's network of NRLs on the analysis by LC-MS/MS of residues of prohibited substances (carbadox and olaquinox) in production livestock (muscle, liver) and their feed (session integrated with the EURL Workshop to be held in June 2012).

Contact: Éric Verdon (eric.verdon@anses.fr)

Publication and design

Publication director: M. Mortureux

Editor-in-chief: P. Martin

Assistant managing editor: B. Gouget

Editorial board: M.-L. Boschioli, D. Calavas, V. Carlier, S. Delannoy, B. Lombard, J.-Y. Madec, V. Molinero-Demilly, B. Pouyet (SCL), E. Repérant, R. Saunier, E. Verdon

Collaborators

Translation: Coup de Puce, D. Pottratz, B. Vallantin
